Education

Vellore Institute Of Technology	2023 – 2027
<i>B.Tech in Computer Science</i>	<i>CGPA: 8.32</i>
Dr. Ambedkar College, Nagpur	2021 – 2023
<i>Higher Secondary (12th Grade)</i>	
Montfort Sr. Sec. School, Nagpur	2020 – 2021
<i>10th Grade</i>	

Technical Skills

Programming Languages: C++, Java, JavaScript, Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST API Development

Databases: MongoDB, MySQL

Cloud Computing: AWS EC2, AWS S3, AWS Lambda, API Gateway, DynamoDB

Tools: Git, GitHub, Postman, VS Code

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Engineering

Projects

Movie Booking Website | *MERN Stack* | **Live Demo** | **GitHub** **2026**

- Built and deployed a full-stack movie booking platform using React.js, Node.js, Express.js, and MongoDB on Vercel.
- Implemented secure authentication and role-based functionality using Clerk for users and administrators.
- Integrated Stripe for online payments and developed REST APIs for movies, bookings, users, and payment workflows.
- Automated booking confirmation and background workflows using Inngest.
- Designed a responsive UI for browsing movies, selecting showtimes, booking seats, and managing bookings.

Weather App | *React.js, Weather API, AI* | **GitHub** **2026**

- Built a weather application using React.js that fetches real-time weather information from a weather API.
- Created dynamic weather cards displaying temperature, humidity, wind speed, weather conditions, and other details.
- Integrated AI-based weather insights to provide simple and useful information about current weather conditions.
- Designed a responsive interface for searching and viewing weather information for different cities.

LeetCode | *React.js* **2025**

- Built a React.js application to display and track LeetCode problem-solving statistics.
- Added a user search feature to view coding statistics using a LeetCode username.
- Displayed solved problems and difficulty-wise progress using visual progress indicators.
- Designed a responsive interface for viewing coding statistics in a simple and organized way.

Razorpay Clone | *React.js, Tailwind CSS* | **GitHub** **2025**

- Recreated the Razorpay landing page using React.js and Tailwind CSS with a focus on responsive design.
- Built reusable components for navigation, feature sections, payment solutions, and other sections.
- Implemented responsive layouts for desktop, tablet, and mobile screen sizes.

Certifications

Networking & Web Technology — Infosys Springboard

C++ Programming — Simplilearn

C Programming — Great Learning

Java Programming — Scaler
